PADCON HAS THE SOLUTION

A COMPACT ALL-IN-ONE SYSTEM

A VERY POWERFUL CONCEPT

FLEXIBLE, VERSATILE AND EFFICIENT

For maximizing efficiency, yield and cooperation the **PADCON Asset Management Tool (AMT)**, a so called "Software as a Service (SaaS)" provides manifold comprehensive tools dedicated to the management of several assets, as well to owner and user of plants as owner of portfolios. AMT unifies different assignments e.g. observation of per-

formance, management of orders, spare parts, contracts, and both alarm and ticket administration included the related reports. This web based solution bridges the gap between the mentioned assignments and simplifies procedures by avoiding information loss.

» YOUR BUSINESS - YOUR MATTER. YOUR SOFTWARE, MAINTENANCES AND UPDATES ARE OURS. FOR YOUR FREE HAND TO MAKE BEST PROFIT.

By providing a web-based platform (SaaS), you save purchasing costs for servers and software - and if need be can grow more quickly than your competitors.

» HEIGHTEN YOUR PRODUCTIVITY BY USING AMT. ADEPT REALIBILITY AND FLEXIBILITY BASED ON THE FUNDAMENTAL PADCON EXPERIENCES.

Manage your projects in collaboration with other corporations and departures by exceeding borders of incompatibility. You decide who get rights of information. Hold all processes in the palm of yourself.

» SAVE COSTS AND GAIN FROM EFFICIENCE IN DOING YOUR BUSINESS.

Information, Values of yield, repair protocolls and more are saved in a time folder. In this way you permanently have control on the status of your plant.

» MANAGE ALL YOUR RELEVANT PLANT DATA SIMPLY, TRANSPARENTLY, AND COMPREHENSIBLY. IT'S VERY EASY TO OPERATE!

All saved data concerning your plant are linked callable and at any time. Fully structured all data are identifiable very easy and make it simple to navigate from content to content.

» YOU GET AN OPEN AND COMPATIBLE SYSTEM WHICH IS EXTENSIBLE AND WELL PREPARED TO BE INTEGRATED.

AMT provides data to your ERP systems in such way you will be able to optimize your business procedures.
